27

Boot Camp: Budgeting Overview

- Budget Cycle
- Production Report
- Evaluating Staffing
- Monthly Reports
- Opportunities for Savings
- Promoting Your Successes
- Glossary

FACING THE FUTURE *together* | NPF PHOENIX 2022

28

Budget Cycle

First Step - What are your actual volumes & costs?

- inbound and outbound mail by type
- print/copy by type

Second Step - What are your projected volumes?

- changes in size of business
- changes in type of business

Third Step - Budget your expenses

- What will this cost you? (Rates, with any increases, by category)
- What equipment and software do you need? (Capital purchases)
- What labor force do you need? (How many people at what skill level?)

FACING THE FUTURE *together* | NPF PHOENIX 2022

29

Production Report

- Determine what information to track.
- How will data be gathered and assembled?
- How often will report(s) be generated?
- Who should receive production reports?
- How will reports be used?

FACING THE FUTURE *together* | NPF PHOENIX 2022

30

Evaluate Staffing

- The most critical component of a successful operation.
- Review current staffing for performance levels, skill sets and flexibility.
- Cross-train whenever possible.
- Replace poor/marginal performers.
- Recruit skilled, experienced employees who make customer service a priority.
- Consider part-time and temporary help for peak periods.
- Eliminate redundancies.

FACING THE FUTURE *together* | NPF PHOENIX 2022

31

Monthly Reports

- Actual vs. Budget
- Percentage differences more important than numbers.
- Why weren't you 100% accurate?
- What are you doing right / wrong?
- Are you on track with projects?

FACING THE FUTURE *together* | NPF PHOENIX 2022

32

Opportunities for Savings

- Use automation whenever possible.
- Maximize postal discounts.
- Renegotiate contracts with vendors.
- Reorganize/reengineer print and mail centers.
- Provide staff with regular training on postal regulations.
- Employ temporary help.
- Promote quality initiatives that improve productivity.
- Use part-time staff.
- Educate your customers.
- Reward your employees.

FACING THE FUTURE *together* | NPF PHOENIX 2022

33

Promote Your Successes!

- Modesty has its place - not in financial reporting.
- **Highlight** savings - don't make people look for them.
- What didn't cost anything, but improved service?
- Quality initiatives will impact your organization, and your image within the organization.
- External - publish, get recognized by industry.

Budgeting: A Glossary

Budget

The financial plan of a company for a period (usually one year) predicting the financial results of its actions.

Budget Theory

Zero based budgeting – Each year, build the budget anew, justifying staff, equipment, training, etc.

Incremental budgeting – Use previous year as a starting point, and increase the budget by percentages based on expected growth.

Capital budgeting – The prediction of fixed asset investments (buildings, equipment, etc.) with considerable expense that can be depreciated over time.

Budget elements

Projected – The projected budget is what you expect to spend in each area (salary, benefits, office expenses, telephone, training, etc.)

Actual – The amount you actually spent on those items.

Variance – The amount by which an actual financial statement differs from its budget value (the difference between projected and actual). You will need to explain why you spent more (or less) than the projected budget.

FACING THE FUTURE *together* | NPF PHOENIX 2022

35

Budget Cycles

Annual – This may be a calendar year (Jan 1 – Dec 31), or a fiscal year. The Federal Government's fiscal year is Oct 1 – Sep 30.

Quarterly – A three-month period. Very important to publicly traded companies.

Monthly – Probably the cycle with greatest impact. Allows ongoing review of performance.

Important Budgeting Concepts

Amortization – prorating the cost of an asset, liability or expenditure over a specific period of time.

Depreciation – The gradual decline in value of an asset because of use or age; the expense arising therefrom.

Financial Statement – an accounting document showing the financial status of a business, or the results of business activity.

Profit and Loss Statement – the financial statement that presents all revenue and expense and resulting profit or loss, by categories, of a company for a specific time period.

Return on Investment (ROI) – for a given capital investment, the ratio of the profit (savings) that will result to the amount of the investment. Also known as Cost Justification; the method of rationalizing a purchase by showing that it saves more money than the expense over a short period of time.

Cost per piece – This is calculated by taking all of the expenses associated with processing mail divided by the number of pieces processed. This includes ALL expenses, including salaries, training, managers, etc.
